Dear exhibitors,

On behalf of the Panamerican Trauma Society (PTS) and the Sociedad de Cirujanos de Chile (SoCiCh), we invite you to join us for the 32° Congress of Trauma, Critical Care and Emergency Surgery and the 92° Congreso Chileno e Internacional de Cirugía. This conference will take place from November 13-16 in La Serena & Coquimbo, Chile.

These organizations are dedicated to education and there are many opportunities to support these scientific events. We hope that you take a few minutes to review the different options of exhibition spaces that we offer.

Your support is important and without it, the PTS cannot offer scientific sessions and cutting-edge educational courses, promote research, support the exchange of information and knowledge among physicians, and health personnel involved in the care of trauma patients in North, Central, and South America.

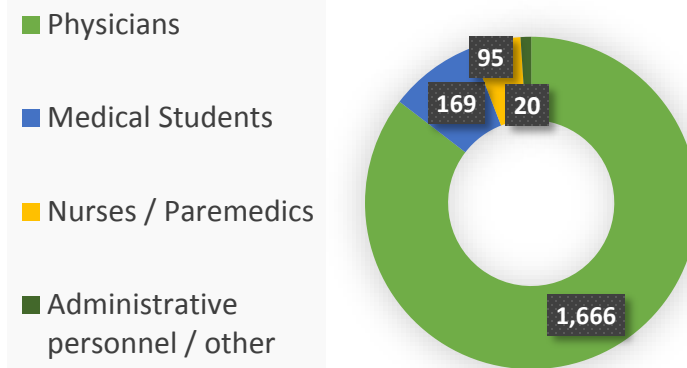

The PTS hopes for your support and collaboration at this scientific event that promises to be successful. Please review the brochure, you will find a package that meets your needs.

Sincerely,

**Program Committee 2019

PTS Sponsorships

Our sponsorship program gives organizations the opportunity to showcase their products and services while exchanging information with healthcare professionals and congress audience. The PTS offers areas for exhibits and displays at its Annual Meeting, and sponsors are encouraged to welcome attendees in the exhibit areas for discussion about their products and services.

The Audience

During the past annual meetings, the PTS has drawn an audience of 700-1000 physicians, nurses, pre-hospital providers, and other healthcare personnel who care for injured patients in North, Central, and South America. This audience is comprised of a significant number of influential health care administrators and faculty members from multiple countries.

This year in Chile we are expecting those numbers to soar as it is a combined meeting with the Sociedad de Cirujanos de Chile. The expectation is to have more than 1600 participants.
